## Bicycle

In developing countries it is vital for children to be able to attend school to receive a good education. They often have to travel a very long distance to get to school. A bicycle costs just £50 and will enable those children from extremely poor families to be able to attend school more easily.

This gift will enable someone who is affected by the political violence in and around Chechnya to be able to travel to and stay at the Living Water Healing Centre.

The vision of the centre is "To be a place of safety and healing for people traumatised by military action and terrorism connected to the war in Chechnya". The Centre offers a welcoming, loving atmosphere where guests come for short periods to enjoy a comfortable home environment with many of the things we often take for granted: a good undisturbed night's sleep with no bombing or shooting, a comfortable bed, a hot shower, nourishing meals three times a day and walks in the countryside.

The gift of a cow can enable a family to double its income by selling milk. The cost of a cow including veterinary fees and an allowance for some cattle feed to cover the period until the cow can produce milk is £180. When the cow produces a calf of its own, it will be given to another family in need.

## Cleft Palate and Cleft Lip Operation

This gift could enable a child to have an operation to transform their life. In Moyobamba, Peru there is a high incidence of cleft palate and lip problems. Operations are carried out once a year when a surgeon and his team are flown to the Clinica San Lucas in Moyobamba.

The clinic receives no funding for the operations and is totally dependent on gifts. The cost also includes psychological support because the children have often been ostracised by their communities.
